Description

Welders Tent 2x2 FR reinforced PVC
Cover for Welders Tent 2x2 FR reinforced PVC

Description

The Welding Shelter (multi-purpose shelter) is a ready foldaway mobile shelter, fabricated using a sturdy powder coated tubular steel. The shelter has a heavy duty welded Flame retardant reinforced PVC cover. The cover has toggle corded access on two facing sides, which enables easy access for both personnel and machinery. It can be used as a welding shelter, a work shelter or a site hut.

Shipping

The welders tent is supplied in boxes one for the cover and one for the steel framing

Parweld Welding curtains conform to BS EN ISO 25980:2014 and provide protection against arc light and UV/IR radiation for non welding personnel.
